## ENERGY EFFICIENT

There's a lot of power in our fans; you'll likely never have to run it at full speed to control your space. At wattages less than a 100-watt light bulb, you can feel up to 4-7 degrees cooler. Plus, every degree change equals nearly 3% savings on your energy bill. Now that's a breath of fresh air.

*\*In accordance with the ASHRAE Standard 55-2010 Comfort Calculator*

## KEY FEATURES

- Wired Touch Screen Remote
- Reverse Capability
- 6-14 feet (1.8-4.3 M) in diameter
- Fire Shut Down Integration
- Gearless Direct Drive Motor
- Less Than 35 dBA\*
- AMCA Tested CFM Numbers

\*Results of sound measurement in the field may vary due to variations in surface types, environment and conditions.

**Standard Power**      120V - 240V 1Ø  
240V 3Ø

A large space calls for an equally grand fan. Up to 24 feet in diameter, the colossal Colossus industrial fan moves extraordinary amounts of air, alleviates hot and cold spots, and keeps the air in your facility in constant motion. The Colossus fan will ensure, your space has a perceived 4-7 degrees cooler feel, offers long term energy savings, and when you need to heat things up, the fan features reverse circulation, which ensures that everything stays “just right” year-round.

#### KEY FEATURES

- Extruded aluminum black or clear anodized blades
- 8-24 feet (2.4-7.3 M) in diameter
- Rotary airfoil winglet design
- Trouble shooting from ground level
- Fire shut down capability
- 55 dBA\*
- AMCA Tested CFM Numbers
- Entire Fan is UL Listed

#### OPTIONS

- Mounting Extension
- Additional Powder Coating Options
- NEMA 4X VFD Enclosure
- NEMA 4X Remote Enclosure
- Wireless iFan
- Corrosion Resistant Package (Consult Factory)
- Multi Fan Remote (2-6)
- Slave Remote
- iFan 7.0 (1-24 fans)
- BMS Integration
- iFan 4.3 (1-12 fans)
- iFan 10.0 (1-30 fans)

# COLOSSUS INDUSTRIAL

#### REVERSE CIRCULATION

Our fans help keep your facility warm inside during the colder months. You can run the fans in reverse to circulate trapped hot air at the ceiling level without producing a wind chill effect below.

The largest HVLS fan, the 24-foot diameter, has been proven to improve airflow in a coverage area of **30,000 square feet**, the largest in the industry.

\*Results of sound measurement in the field may vary due to variations in surface types, environment and conditions.

# SUMMIT DIRECT DRIVE

The Summit HVLS fan is designed to move extraordinary amounts of air, helping your entire facility run smoothly, while providing substantial energy savings. Not only will you feel the difference of a noticeably cooler space, but you'll also reduce stagnant air, alleviate hot and cold spots and keep food dry and fresh. The Summit is available in diameters ranging from 8 feet to 24 feet to accommodate your space and a variety of customization options.

### KEY FEATURES

- Extruded aluminum black or clear anodized blades
- 8-24 feet (2.4-7.3 M) in diameter
- Rotary airfoil winglet design
- Trouble shooting from ground level
- Fire shut down capability
- 45 dBA\*
- AMCA Tested CFM Numbers
- Entire Fan is UL Listed

### OPTIONS

- Mounting Extension
- Multi Fan Remote (2-6)
- BMS Integration
- Slave Remote
- Wireless iFan
- iFan 4.3 (1-12 fans)
- iFan 7.0 (1-24 fans)
- iFan 10.0 (1-30 fans)

### STANDARD COLORS

Custom colors and combinations are available on frame, mount & winglets.

Standard Power: 120V 1Ø, 208V - 240V 1Ø or 3Ø, 460-480V, 575V 3Ø

The BREVIS 3-Blade fan is designed to move extraordinary amounts of air, helping your entire facility run smoothly, while providing substantial energy savings. Not only will you feel the difference of a noticeably cooler space, but you'll also reduce stagnant air, alleviate hot and cold spots and keep food dry and fresh. The BREVIS 3-Blade fan is available in diameters ranging from 8 feet to 24 feet to accommodate your space and a variety of customization options.

## KEY FEATURES

- Extruded Aluminum clear anodized blades
- 8-24 feet (2.4-7.3 M) in diameter
- 55 dBA\*
- Fan safety system incorporates steel hub, aircraft grade safety cable and guy wires
- Fire Shut Down integration
- Variable Frequency Drive with forward/reverse operation
- AMCA Tested CFM Numbers

WIRELESS iFAN OPTIONS

The new wireless iFan control system operates on an RF 900MHZ network, enabling seamless communication between fans over distances of up to 1,500 feet. Even in environments with walls, racking, and other line-of-sight impediments, users can trust consistent and reliable connectivity without the need for traditional low-voltage wiring. The wireless iFan empowers businesses to maximize airflow while reducing costs and installation complexity.
